Re: MTS Ltd

During my time as Network Manager at Hemsworth Arts & Community College we have worked alongside MTS Ltd on many projects in this time they have supplied and installed a number of Audio Visual products such as projectors, interactive white boards and digital signage solutions.

I personally find the company very easy to deal with, they offer competitive prices and a flexible service. All installations have been completed on time and they take that extra bit of time and care that is required to get a install of the highest quality.

It is therefore without hesitation that I recommend MTS for any ICT and Audio Visual products and services.

If you require any further information the please do not hesitate to contact me.

Scott Lynch

Network Manger
