Meadowhead School have been involved with MTS for around a year. In that time they have provided valuable advice on IT and multimedia systems around the school, and have been chosen to supply and fit data projectors and a digital signage system. On all occasions that I have dealt with the staff at MTS, I have found them to be extremely helpful, friendly and flexible - which is vital when working with schools. Based on my dealings with MTS, I would happily recommend them to prospective clients, and would welcome any opportunity for them to showcase the work they have done here.

Gary Bragg
ICT Strategy Manager
Meadowhead School, Sheffield
